vis à vis Experience Center located in **Chattarpur** — an immersive lighting solutions destination.

A unique combination of a studio, a gallery and retail business, vis à vis was founded by Amit Gupta as a lighting solutions company. In its 15-year journey it has set several benchmarks to present lights for architecture and as a tool to design specific environments.

Set in 2.5 acres of open space, lush green lawns, glass cuboids interspersed with installations and office blocks, make a visit to the vis à vis studio an exhilarating experience.

Iconic lights presented in an international setting make it a highly recommended destination for those in search of not just pretty lights but also all the know-how needed.

Additionally, on display is a large collection of designer lamps from *lightandyou.com* — launched by vis à vis in 2016.

So, if you are looking for a well curated collection, installation ideas and the latest products from leading design brands across the globe, make a beeline to vis à vis (by appointment only).
